

ECODUVET SOLUTION

THE ECO-CARE OF FEATHERS AND DOWN

THE RESPONSE FOR MAINTAINING FEATHERS AND DOWN

FEELING OF WELL-BEING

This treatment is based on the recipe of the **Marseille soap** : a **powerful natural detergent**

ECO-MICROENCAPSULATED TECHNOLOGY

Benefits from a **high performance microencapsulated technology** that ensures a long lasting treatment.

NATURALLY-OCCURRING SUBSTANCE

ECODUVET is a **biodegradable treatment** that will not leave any chemical residue on the fibres. Its **biosourced** composition reduces its pollutant charge.

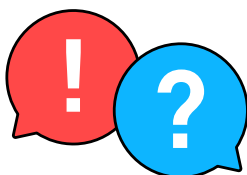

COMPLIANT & RESPONSIBLE

ECODUVET is a 100% French made technology validated by **dermatological laboratories**

Mechanism of action

ECO-DUVET is an efficient effective detergent containing only biodegradable organic substances. This exclusive and innovative process allows to **wash and degrease feathers and down efficiently without damaging them.**

Performance

ECODUVET SOLUTION

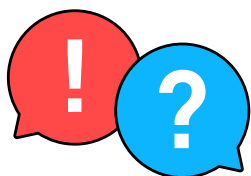

THE ECO-CARE OF FEATHERS AND DOWN

Active treatment substances

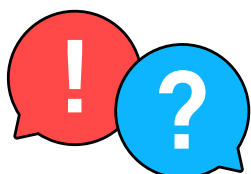

Marseille soap is an age-old recipe now industrialized in the production plant located in Marseille. Authentic Marseille soap is composed of four main types of ingredients: vegetable oils, water, sea salt and sodium hydroxide, responsible for saponification. Marseille soap is known for its many advantages, such as its **hypoallergenic formula** or its cleaning efficiency. It is the healthiest and most environment-friendly option to industrial chemicals for washing feathers and down.

Safety and security
