

RESPIRE® SOLUTION

THE TEXTILE TO BREATHE BETTER

BREATHE BETTER AND FALL ASLEEP EASIER

PERMANENT FEELING OF WELL-BEING

RESPIRE® helps to **clear the airways and the ENT sphere**. This treatment offers a sensation of freshness and a pleasant scent that **increases the quality of sleep**.

NATURALLY-OCCURRING SUBSTANCE

RESPIRE® is solely composed of **active plant ingredients** such as menthol essential oil and eucalyptus essential oil.

COMPLIANT & RESPONSIBLE

The innocuousness of RESPIRE® is validated by dermatological laboratories. This solution contains no biocide and **meets all export requirements**.

ECO-MICROENCAPSULATED TECHNOLOGY

Features a **high-performance microencapsulated technology** that ensures prolonged persistence and long-lasting effectiveness.

Mechanism of action

Sneezing, coughing, colds and respiratory allergies make life unpleasant and disturb sleep. RESPIRE® is **the naturally derived solution that helps to clear the airways and breathe easier**. Thanks to concentrated Menthol and Eucalyptus essential oils, RESPIRE® diffuse efficacious active ingredients to relieve the ENT tract and decongest. The ENT sphere is released allowing a better night breathing.

Performance

A sensory objectification test was conducted on a target panel of 20 people aged 24 to 65 years by the ITA Test laboratory (Poland) on RESPIRE® fabrics to evaluate the performance of the RESPIRE® formula on sleep quality.

This evaluation is performed in accordance with the test procedure PB15/DA ed. 3 of 12.02.2013

RESPIRE® SOLUTION

THE TEXTILE TO BREATHE BETTER

Active treatment substances

The powerful RESPIRE® technology is **formulated with active ingredients of biosourced plant origin**. The concentrated Menthol and Eucalyptus essential oils present in RESPIRE® treatment diffusent their properties to relieve ENT tracts and decongest. Used for their health and wellness benefits, these oils have miraculous virtues on the body. The combined actions of menthol and eucalyptus help **relieve the respiratory tract and provide a pleasant feeling of freshness throughout the night**.

Safety and security

Numerous controls carried out by independent toxicology and dermatology laboratories have demonstrated the harmlessness and hypoallergenicity of the RESPIRE® formula. This formula, the result of 3 years of Research & Development, is **harmless to the ENT sphere**.

Regulations & Certifications

RESPIRE® technology meets OekoTex requirements. This solution is not a biocide and can be exported worldwide. RESPIRE® complies with the European REACH, TCSA and RSL regulations.

Application process

RESPIRE® technology makes textiles functional by freeing the airways.
